EEM Guide for Suppliers

Last Updated: 9.16.2021

The information in the following document will help suppliers and brokers more efficiently navigate the EEM system. This guide is designed to provide step by step instructions to use the Virginia ABC EEM system. This is used as supplemental information that was discussed during the online EEM Training. If you still have questions after reading this document and referring to the online EEM Training, please contact <u>EEMTraining@virginiaabc.com</u>.

Below are the steps required to successfully schedule deliveries using the EEM system. This guide will walk through step by step how to perform these steps.

- 1. Supplier creates a Purchase Order
 - The Purchase Order is where the supplier will notify Virginia ABC of the products and quantities they are expecting to bring on their delivery.
- 2. Supplier creates an Advanced Shipping Notice (ASN)
 - The ASN allows the Virginia ABC receiving department to properly receive the Purchase Order from the Supplier.
- 3. Supplier links the PO to the ASN using the "Create ASN from PO Shipping" user interface
 - Linking the PO to the ASN allows the Virginia ABC receiving department to receive the product on the ASN.
- 4. Supplier or Carrier creates the Appointment
 - Creating the appointment is where you will set the date/time for your delivery to arrive. This can be done by the supplier or the carrier.
- 5. Supplier ships the ASN in EEM
 - Shipping the ASN notifies the Virginia ABC receiving department that the delivery is coming. Shipping the ASN in EEM can when the supplier is sure that the PO will not change.

Helpful Information before Getting Started

The new Distribution Center Address is: 7452 Freight Way, Mechanicsville, Virginia 23116

The address is a brand new road and some people have not been able to find it on google maps. If you are unable to locate the building using the address above, please use the address below. This will take you to our new facility.

7389 Pole Green Road, Mechanicsville, VA 23116

All deliveries much go around the right side of the building and check in with the security guard. Deliveries must have an appointment ID in order to get through the security gate.

Helpful Links:

- EEM Training Link link to retake training through the COVLC website
 - <u>https://covlc.virginia.gov/Default.aspx</u>
- EEM Live Environment use this link to begin using the EEM system.
 - o <u>https://vabc-eem-prod.logistics.com</u>

It is highly recommended that users Pin Tiles to their EEM home screen for easy navigation. To learn how to Pin Tiles, please double click the "Pin Tiles in EEM" document below.

After pinning tiles to your home screen, your EEM home page should look like the screenshot below. The five tiles you will need to access are: "Purchase Orders", "ASNs", "Create ASN From PO – Shipping", "Appointments", and "Add Appointment".

To begin the process of using EEM, double click on the Purchase Orders UI and follow the instructions below.

1. Create Purchase Order (Purchase Orders user interface):

Access the Purchase Order UI and click the Add button that is indicated by the red square below to create a Purchase Order.

On the "Add PO – Add Purchase Order" screen you will only need to fill out the following information. No other information is needed other than what is listed below!

<u>General Tab</u>

- The **Purchase Order ID** field will be blank. The EEM System will auto generate the purchase order ID.
- The Billing Method will always be "Prepaid"
- The **Due Date** will be the estimated date for the Purchase Order. This is an estimate, and will not guarantee that your appointment will be on this day.
- The **business partner ID** will be a four digit code that signifies which supplier is on the purchase order. All business partner ID's will begin with the number 4, followed by the three digit vendor code assigned to the supplier in MIPS. (As a supplier, this will already been filled in).

Add PO - Add Purchase	Order

Purchase Order ID:		Due Date:	Business Unit: Virginia A	BC ¥
Billing Method: (none	•) •	Business Partner ID:	The business partner ID is always	
General The Billin Prepaid.	ng Method will always be		your company ID number.	

- After the above information is filled in, scroll down on the page until you see the Origin and Destination fields. The only other mandatory information on the general tab is the following:
 - **Origin Facility** this will be the same 4 digit number as the business partner ID above
 - Note: Brokers, this is where you will enter in the appropriate 4 digit number of the supplier that owns the product.
 - **Destination Facility** this will always be VABCFACILITY

^{3A ex} ID number (Same	y ID is always your company as Business Partner ID).	urn address code:	The Destination Facility ID is always VABCFACILITY

Lines Tab

After clicking on the Lines tab you will be taken to the following screen. This is where you will fill out the specific item information for the Purchase Order. Please review the notes below to see the exact fields that need to be filled out on the Lines tab.

Add PO - Add Purchase Order		୯୦୨ କଷଷ
Actions - Tools -		
Purchase Order ID: Billing Method: (none)	Due Date:	Business Unit: Virginia ABC 🗸
General Lines Business Partners	Notes	
Line Number	*Item *Order Quantity	Overship Percent Overpack Percent External Sec
	(none) V	
Add Delete		

- In the Line Number field, enter the line number. For example. If there are 4 items on your purchase order, you will have lines 1, 2, 3, and 4 (as shown below).
- Line Type will always be "Item".
- Item enter in the 6 digit Virginia ABC item code. When entering line items on the Purchase order, the items MUST be six digits in length. If your item code is less than 6 digits, you must add a 0 in front of the item to reach the six digit length.
 - For example:
 - if your item code is 12345, you will enter 012345 in EEM
 - if your item code is 1234, you will enter 001234 in EEM
- Order Quantity will always be in **eaches** (<u>bottles</u>). For example if you are bringing in 100 cases with 6 bottles per case, you would enter 600 eaches in the order quantity field.
- The last field that needs to be filled in on the lines tab is the **Size 1 field**. This is where you will enter in the number of pallets that the product will come in on. For each item, enter in the number of pallets the product will be on. This is extremely important as the number of pallets help determine the duration of the appointment.
 - When entering the Size 1 Field (Pallets) on the Purchase Order, this field can be a decimal. For example, if you are bringing in 60 eaches of a product (5 cases), you can estimate that this would be 0.10 of a pallet.
 - Each line item on the Purchase Order MUST have the Size 1 Field filled in. If a line item does not have a pallet quantity (size 1), the receiving department will not be able to check in the product!

Control Authority

- If you are having trouble saving the PO and receive an error, for example "item not valid", please reach out to EEMTraining@virginiaabc.com for assistance. **Do not ship any product to the warehouse that is not on the PO/ASN!**
- Click save. A Purchase Order ID number will now be generated. Please save that number for use later in the process.

- Check the box next to your ASN
- Click **Ship** at the bottom of the screen
 - ASNs should be shipped on the day the delivery truck leaves your facility. This ensures that no changes will be made to the ASN
 - The ASN can be shipped earlier than the day prior, but only if the supplier is 100% certain that no information on the PO/ASN will change.

• After you have shipped the ASN, the status of the ASN will change from Open to In-transit.

ASN:	ASN0000110	
ASN status:	InTransit	

Do not ship an ASN until you are 100% sure that the items and quantities on the delivery will not change. If there is a change that needs to be made to the delivery, please follow the steps in the "Updating an Existing Purchase Order" document to update the PO and ASN prior to shipping the ASN.

You have completed all the necessary steps to successfully create a purchase order, ASN, and appointment for Virginia ABC's new warehouse!
