

Health and Safety **ACTIVITY BOOK**

Virginia Alcoholic Beverage
Control Authority
**Education and Prevention
Publication Series**

Dear Trusted Adult,

We are glad you picked up this booklet! The Virginia Alcoholic Beverage Control Authority (Virginia ABC) Education and Prevention publishes materials for people of all ages. This activity booklet has fun, age-appropriate activities for elementary school students.

Did you know it is never too early to help children form healthy attitudes about alcohol? Pre-school children learn to take care of their bodies with good hand washing habits and healthy eating. It is also important for their health and safety to learn about the dangers of alcohol, drugs, chemicals and other substances.

Please explore this book with your child and talk about the messages. Also remember that your actions and behaviors are probably even more important than what you tell your children about alcohol. Kids are constantly observing what is happening around them and they learn from, and mimic, what they see.

We hope you find this information helpful. Please look in the back of this booklet for our contact information and additional resources.

Kind regards,

Virginia ABC Education and Prevention Staff
